

**NO WIRES,  
NO WORRIES!**

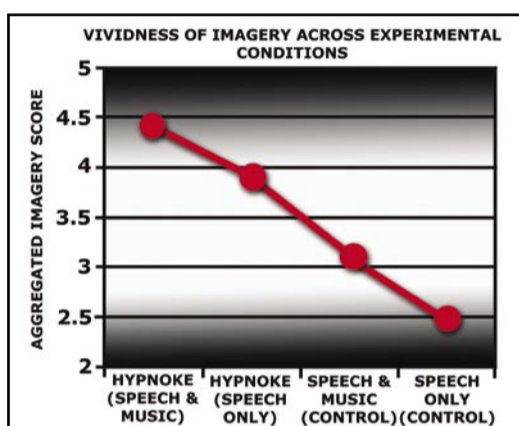

For the first time there is conclusive scientific evidence that proves how Hypnoke Wireless can make a difference to the outcome of your therapy sessions. No other manufacturer of similar audio products, to the best of our knowledge, can make this claim.

Hypnoke International recently commissioned a scientific study with Brunel University, a world leading research institution, to examine the effectiveness of Hypnoke Wireless under different experimental conditions. The results have exceeded expectation.

Dr Costas Karageorghis, Principal Investigator and Reader in Sport Psychology, Brunel University, West London, said:

*"I have prepared a summary report for the study that Hypnoke has sponsored, and I really could not have hoped for better results."*

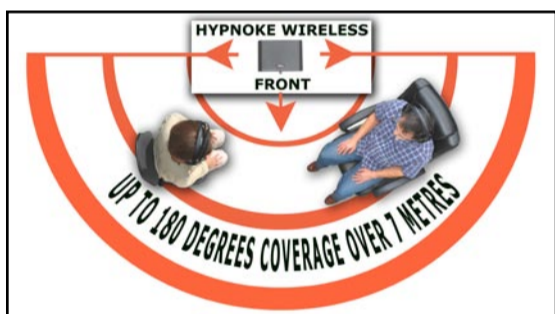

*"I am amazed that the equipment is so effective! I expected the effect size to be small-to-moderate, but it is in actuality, very large. Essentially, the system works well and our empirical data supports its efficacy."*

(Please contact us for a copy of the report summary)

So, if you want state-of-the-art, wireless, digital communication between you and your client with no fiddling, fuss or complicated wires, and results supported by legitimate research data, then the Hypnoke Wireless is for you. Perfect for non-technical therapists, just plug it in, and enjoy instantly talking to your client in a quiet, peaceful environment.

Hypnoke Wireless means no leads between you and the client. You can sit or walk around anywhere within the coverage area (picture below), without ever getting tangled up in any wires! The system requires no technical knowledge to operate, and can be set up in a few minutes.

You can combine your voice with music from the supplied CD player and relaxation CD, cocooning your clients with superb audio from Hypnoke's Clear Sound System.™

You can also record everything onto the optional, professional, Digital Recorder.

**FLIGHT CASE**

## Recording your sessions with Hypnoke and the Digital Recorder is as easy as 1,2,3!

**Step 1:** Plug the recorder into the Hypnoke and record your session in glorious stereo.

**Step 2+3:** Next, plug the recorder into your computer and transfer the recorded file. Then burn the file to CD, via your PC. Simple!

You can use the Digital Recorder to record on its own with the built-in stereo mic, or with Hypnoke Wireless. It comes with a full set of accessories and now includes a protective case, kit bag and 4GB card. It costs **£197.00**, including free courier delivery (UK only).

Hypnoke Wireless can also be linked to our Corporate Multi-Headset Systems, allowing you to talk wirelessly to groups of up to 30 people. The kits are portable and quick to set up. Please contact us for more details.

Our products have been endorsed by many of the leading hypnotherapy organizations in the UK, including GHR, APHP, BIH, NCP and the NRAH.

Hypnoke products are built to last and are reliable, with first-class after sales service - that's why many of the top therapists in the UK and abroad use our systems. Why don't you join them? **Call us today.**

Hypnoke Wireless is a Limited Edition model and is only available directly from Hypnoke International. **NRAH members price: £567.00 (saving £30.00 on normal price of £597.00). Hypnoke Wireless and digital recorder kit costs £764.00 (normally £794.00)**, including free courier delivery (UK only).
